# EG METALL GMBH – WE MOVE WHAT OTHERS LEAVE BEHIND

For over 15 years, EG-Metall GmbH has been offering customized solutions for the industry – with locations in Asperg and Mannheim and projects both in Germany and abroad. Our range of services includes professional industrial assembly and disassembly, machinery relocations, transport logistics, and sustainable recycling.

Experienced specialists, modern technology, and well-thought-out planning ensure that your production processes continue smoothly and with minimal interruption. From single units to complete production lines – we support you from the initial idea to turnkey delivery.

## OUR MAIN AREAS OF FOCUS

- ▣ Industrial Assembly and Disassembly
- ▣ Machinery Trading
- ▣ Scrapping & Industrial Demolition
- ▣ Production Relocation
- ▣ Planning and Consulting
- ▣ Transport & Containers
- ▣ Recycling

Efficient Industrial Assembly for Smooth Operations

# INDUSTRIAL ASSEMBLY

Industrial assembly is the central component for the installation, conversion, or dismantling of machines and production facilities. Whether it's for the construction of new plants or the modification of existing systems – precise planning and professional execution are crucial. Our expertise in this field ensures that your projects are carried out efficiently, safely, and according to the highest standards.

- ✓ **Complete service: We take care of the entire project management, from planning to implementation.**
- ✓ **Scrapping and industrial demolition: Dismantling and disposal at the highest level.**
- ✓ **Machine trading and machine scrapping: We ensure efficient use and disposal of machines.**
- ✓ **Planning and consulting: We develop customized concepts for your projects.**

Through close coordination of all involved companies, we ensure efficient project execution. This saves you valuable time, reduces costs, and efficiently minimizes organizational effort.

The goal is to keep interruptions as short as possible and to resume operations as quickly as possible.

As a comprehensive industrial service provider headquartered in Asperg with a branch office in Mannheim, we undertake demanding tasks in the field of industrial assembly throughout Germany. From planning to dismantling and relocation, all the way to the complete assembly of complex systems, we reliably and solution-oriented support our customers in implementing their projects.
